The North Dakota State Electrical Board is providing eight (8) hours of continuing education the 2020 NEC Analysis of Changes. Pre-register at www.ndseb.com. If cancellation occurs due to weather, please check the homepage on our website or call (701) 328-9522.

E-CERT SYSTEM: Effective August 31, 2020, paper wiring certificates are no longer available. Thank you to the contracting master and class B electricians that have submitted their application for access to the e-cert system.

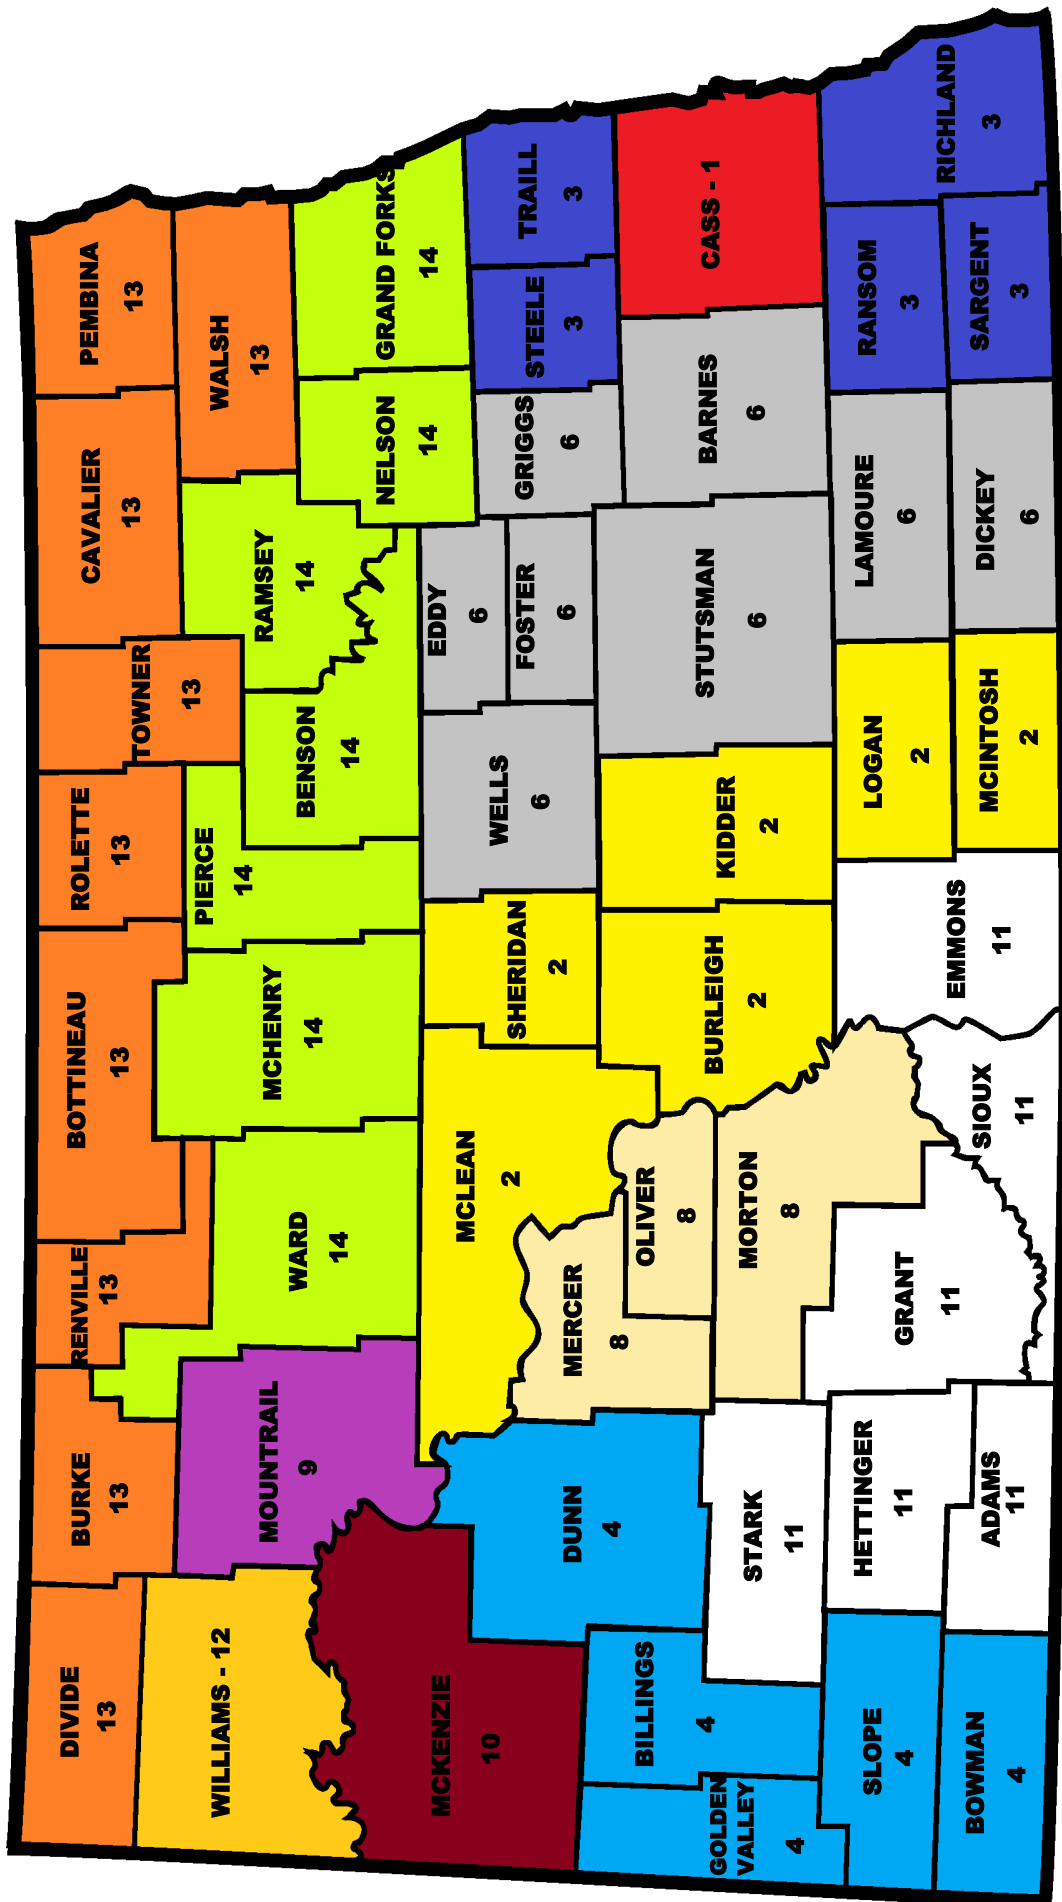

Here are a few tips to the e-cert system:

- When adding a new certificate, you will need to choose a job jurisdiction under the site information. Please select "State" if the job does not fall within the city limits of the four cities listed; (Bismarck, Fargo, Minot, Grand Forks).
- A copy of the e-cert is only emailed once to the power company chosen – if you happen to select the wrong power company please call the NDSEB office, have it changed and then you will need to fax or email a copy of the wiring certificate to the correct power company.
- Clicking "Add Certificate" more than once will result in duplicate certificates being issued. Please contact the NDSEB office if you have duplicate certificates.
- Please do not certify an e-correction report if it indicates to submit final paperwork and inspection fees until you have done so.

Instructions to the e-cert system are available on our website, www.ndseb.com, E-Cert, General Information or please feel free to contact the office with any questions.
